water quality parameters.xlsx

Personal Email/Ex. 6

And our initial water quality parameter data. We did see a pH drop at Bakers Bridge at the front edge of the plume.

Subject: For your information

I share this as a member of the Stakeholder group. Preliminary draft data available to you - please use accordingly as preliminary draft data/information.

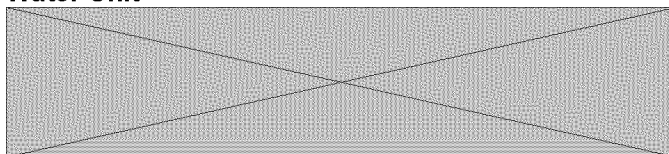

I hope we can coordinate data exchange in the future as information becomes available short term and for long term discussions, since we all have different information and limited capacities.

I don't know yet when and how CPW will decide to release the sentinel fish data, but look for the information.
